

Technical Writer

Seeking a seasoned Technical Writer with experience producing and/or editing highly technical documentation.

Candidate must:

Be able to work with Subject Matter Experts (SMEs) to prepare new or changes to existing product documentation, manuals, SOPs, etc.

Have ability to consolidate technical inputs and analyses and produce a logical understandable document.

Understand and perform content management functions such as document organization using a central repository.

Be strong in document editing, structure, and logic flow for both technical and non-technical audiences.

Be proficient in both G-Suite and MS Office products.
